Recommendation for Rent Resolutions and Green Cross Solutions

20th March 2021

As a shop owner in a high street these are difficult times with COVID. Restrictions. Trade has reduced by 50% and Grants are not always forthcoming from Medway Council.

After working with the consultancy practice Green Cross Solutions, which is the main Group Company for a number of years, who had provided cost saving and sales and marketing advice,

I requested assistance with completing my Grant Applications from Medway Council. This was successful and a very reasonable fee paid for the service which was polite, supportive and a big weight off of my mind.

Rent Resolutions is a new service and company that is providing Rent Reductions that are taken out of my commercial lease.

Prior to the involvement from Rent Resolutions, I had been rejected any help from my landlord throughout the entire COVID restrictions.

Thanks to the support and hard work from Rent Resolutions, with my Landlord and their representatives

I have received a 75% reduction in my rent for the foreseeable future.

This has helped the business in a massive way to regenerate and survive for when lockdown eases in 2021 and hopefully comes to an end in 2022.

I would strongly recommend using both Rent Resolutions and Green Cross Solutions to assist with any financial planning or cost cutting exercises.
